TSB0308 2007 Cobra CX65 Engine Components

November 12, 2007

The following engine components for 2007 Cobra CX65 have become discontinued. Customers needing a replacement for any of the following parts must upgrade with the complete parts package which is to be standard components for 2008 Cobra CX65. This upgrade will require the customer to return his 2007 specification engine to Cobra (customer pays shipping) and Cobra will rebuild the engine with these components to 2008 specification for a nominal fee and return to the customer (customer pays shipping).
