TSB0610 CX65 Subframe

Cobra is no longer offering a replacement subframe for 2007-2009 model CX65s. Instead, customers requiring a replacement subframe will need to order a complete 2010 bodywork upgrade kit (Part number TKC60910). This kit is reasonably priced, and it includes the subframe, gas tank, radiator shrouds, and seat. All parts bolt directly up to 2007-2009 model CX65s.
