Crank Bearings for 2017 CX65 Engines
TSB00717

Crank bearings for the 2017 CX65 may be either NSK C4 (ECR60007) or BL C3 (ECDC0023).

The fit with the crankshaft journals is slightly different between the two bearings. Because of this, the crankshaft used with the NSK bearings is ECC60219 whereas the crankshaft used with the BL bearings is ECC60188.
