Clutch Caps for CX65 Engines
TSB00817

The clutch cap (ECC60179) and clutch slave piston (CCC60005) used on Cobra CX65 engines 2015 and newer have been upgraded and can accommodate an internal bellows. If a customer orders old parts for service replacement they will automatically receive the new parts.

The new for 2017 bellows (CCC60007) will work on 2015 and 2016 models if the customer gets the associated upgrade piston and clutch cap.
