Optimized Clutch Washer Stacks for each CX50

Based on torque, gearing, and type of use, we have stacks optimized for the JR / P3 and different stacks optimized for the King & Factory Works. For the JR/P3 we have in a black bag, CACJ0001, and in a yellow bag we offer CAFW0005 optimized for the King & Factor Works.

We will continue to offer the same reliable clutch washer stacks CAMU0014 (in the recognizable blue bag) that best walks the line between optimized clutch engagement for all models.

This also dictates that there are also 3 different part numbers for shoes with washer stacks, as well as the complete clutch. Shoes with washers, as well as complete clutches, will also now be bagged with colors identifying the washer stacks used.

	JR/P3	Universal	Factory Works / King
Color	Black	Blue	Yellow
Washer Stacks	CACJ0001	CAMU0014	CAFW0005
Shoes & Stacks	CACJ0010	CAMU0009	CAFW0050
Complete Clutch	CACJ0100	CAMU0002	CAFW0500
