TSB0225 A reminder of AMA wheel base limits

Just a friendly reminder that the AMA has wheel base limits for every class of motorcycle that Cobra makes. It is ILLEGAL to race an AMA race with the wheel base longer than this.

Cobra measures this on a bike stand, axle center to axle center, on both sides to ensure the bars are straight.

Bike	Wheelbase (inch)
CX3E	41.0
CX50JR	36.0
CX50SR (King)	41.0
CX5E	41.0
Factory Works	41.0
CX65	45.5
