TSB0625 Pistons for CX65

Due to supply issues, Cobra will have several different interchangeable part numbers for CX65 OEM piston kits.

A customer ordering ECC60208 (Vertex Pistons, uncoated) may get any of the following piston kits below depending on availability.

Part Number	Supplier	Coating
ECC60208	Vertex Pistons	uncoated
ECMU0084	Athena	Uncoated
ECMU1084	ProX	Moly coated
ECMU1184	Athena	Moly coated

Additionally, only one part number will be available at a time regardless of what part number is ordered. In other words, only the one on the shelf will be shipped or built into an engine.
