CSB0126 Part numbers for batteries and kits.

The batteries for 2026 MY CX-E products will have removable customer interface connectors (Interposers). Below are part numbers for new and remanufactured batteries. The only part numbers to be 'sold' will have "SK" associated with them flagging them as selling kits that include transportation case.

Also of note: previously remanufactured batteries were listed as "REM". Going forward there may be up to 3 levels of remanufactured batteries based on measured capacity.

- Race Grade (RG) – The best – ready for Nationals
- Track Grade (TG) – Very good – local races
- Practice Grade (PG) – good – extra practice

Voltage	Thru 2025	2026 & on
48V	DACE10001	DACE10148
60V	DACE10060	DACE10160

"xxx" denotes voltage – either "148 or "160"

	# for Customer Satisfaction	# for sales kit with transportation case
New	DACE10xxxMP	DACE10xxxSK
Remanufactured	DACE10xxxRG	DACE10xxxRGSK
	DACE10xxxTG	DACE10xxxTGSK
	DACE10xxxPG	DACE10xxxPGSK

Only "SK" kits will have a retail and dealer cost associated with it.
